— HOW IT WORKS

Value-added products are made from your ground beef — every pound ordered here comes out of your ground beef total, not on top of it.

The processor requires a 20 lb minimum per flavor — choosing two flavors of links means at least 20 lbs of each. A half beef can carry three products at most.

Prices shown are the processor's per-pound rates, billed at cost on your Final Balance. Specialty work can add a couple of days at the processor.
